# Updates (Campus Solutions Only)

One of the biggest changes in the PeopleSoft upgrade is that there **no longer is a "PeopleSoft Campus Solutions" tile**. The Main Menu, Favorites, Recently Visited and the navigation breadcrumbs have been moved to the **NavBar**.
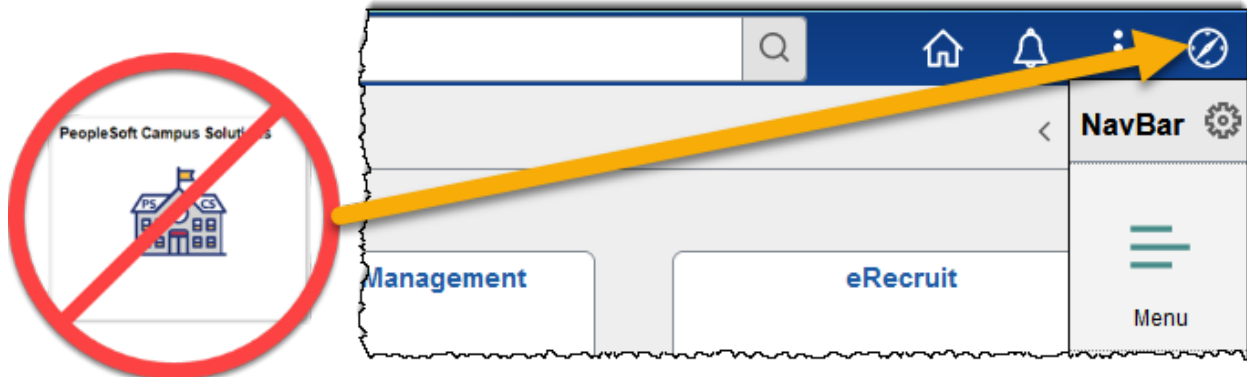

The **NavBar** will be your starting point to navigate to pages in PeopleSoft Campus Solutions.
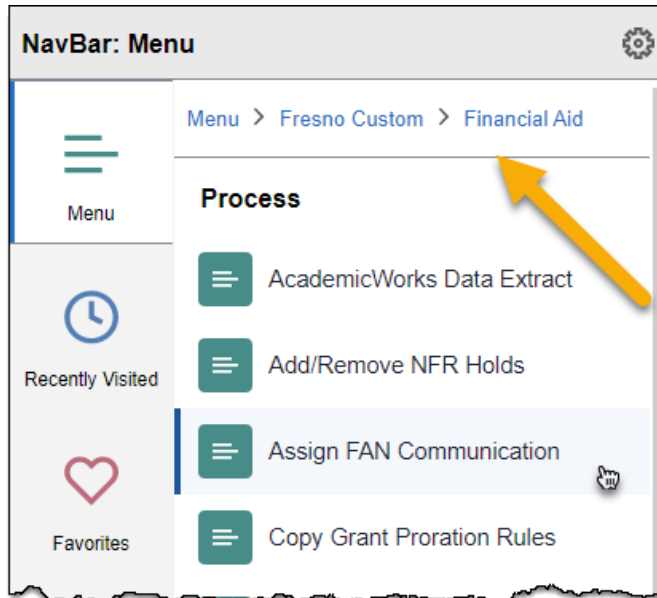

Just like the classic view, you will have the Menu, Favorites, and Recently Visited pages available in the **NavBar**
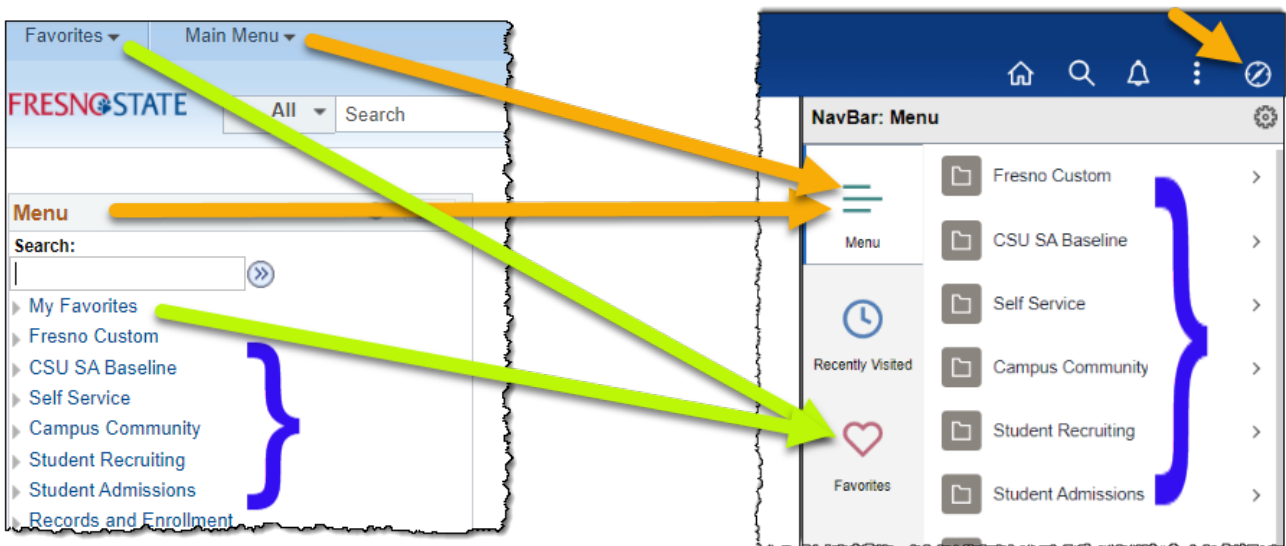

Breadcrumbs have moved to the NavBar

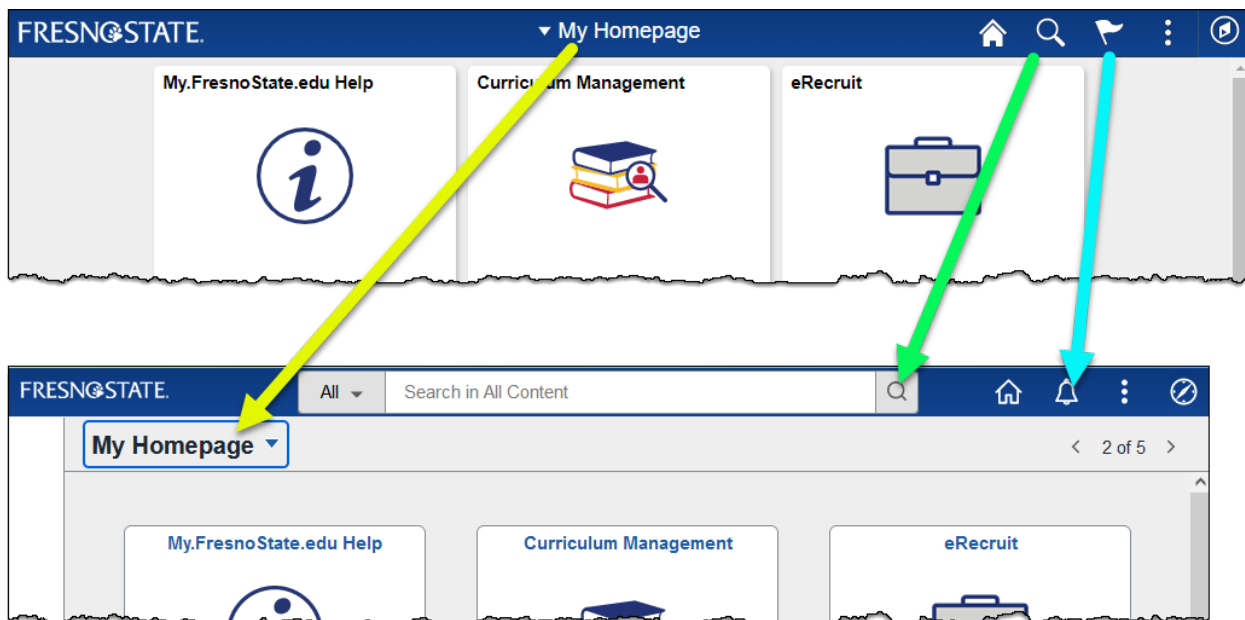

* If you have documentation that shows old breadcrumbs screenshots, Please Update.

Some Items have moved around

Features may be in locations that you don't expect, but everything should still be available!
