

Digital Document Accessibility Training

Hybrid Training

Technology Services is now offering Digital Document Accessibility Training. This one-hour training is offered in person and on Zoom. The Office of Digital Accessibility (ODA) will provide an understanding of digital document accessibility fundamentals. An exercise will be provided at the end of the training to verify knowledge of the tools and skills learned. Attending this training is required to maintain access to the documents folder on the OMNI CMS platform by the end of June 2024.

Spring 2024 Rollout Plan

For the Spring 2024 semester, hybrid training sessions are being held twice a day on Monday, Thursday, and Friday. In addition to this, 1:1 sessions are available for those who would like to learn more.

By June 2024, users who have successfully completed the training will be granted the ability to update/upload documents into folders on OMNI CMS.

Highlights

- A guidebook and checklist will be provided to attendees.
- Basic knowledge of utilizing digital tools to examine and fix documents with Adobe Acrobat Pro.
- Option of attending either in-person or through Zoom for added flexibility.
